Defending champion Cerritos was ousted by Bakersfield, host Glendale was knocked over by Fresno, and tourney favor-ite Valley absorbed a 104-88 licking from East Los Angeles.

THREE Warriors cracked into double figures led by Dan Karavas with 22 points, but it was not enough to match the four double-figure performances by Pierce, headed by center Norm Keseric's 20 coints.

Keith Erickson with 14 points, and Paul Ingleman who hit for 16, almost combined hit for 16, almost combined with Karavas to pull the tilt out of the fire for the Indians. Usually able to depend on strong support from the bench, ECC was let-down in this department as only nine points came from substitutes.

RON DINNEL, h i g h point man for EC against Los Angeles City College Tuesday with 22 digits, was held to just five points by Pierce.
Pierce held a 37-35 lead at halftime, but the Tribe came back to gain the upper hand in the second period, only to finally lose out when two shots from beneath the basket failed with just seconds left to play.

I don't know about you, but I'm getting a bit bored by gentle heavyweights with gossamer feelings. "I do not have the killer instinct," announced Floyd Patter-son, after decking a poor unfortunate named Tom Mc-Neeley Jr., in a heavyweight-title minuet. Patterson several times tried to help the fallen McNeeley to his feet after flooring him. The news pictures of this bit of solicitude seemed to me to epitomize the frightfully low estate of the heavyweight punching biz these days

In addition to being as sensitive as a butterfly.

Patterson is a great self-prober. "But do you need the killer instinct in boxing?" he asked reporters after the fight. "I have had 40 fights and won 38 of them without it. After all, this is a sport. Not a business. You have to show some consideration for the other fighter."

Now the killer instinct is strictly phonus-bolonus; but I like to pretend it exists, as most fight fans do. I resent any mere practitioner of the craft putting a crimp in my illusion. I wish to think Jack Dempsey was a true sadist, despite the fact that I know Jack to be an almost childishly gentle man.

The noted knob experts who go into these matters assure us that the high-wire artist is ridden by fear, and must several times daily prove his courage ostentatiously. That the lovable comedian is a sink of hatred, and must prove that this is not so. That many professional athletes, notably prize fighters, are ob-sessed by a deep fear they are really not tough guys at all, and so get into a business where they must impersonate toughness.

The killer instinct may be a psychological pose. But I like it. I like it the same way I can like seeing a New York Social Register type make like Tarzan in a movie. When big bouts are being built up by those maestros of make-believe, the sports writers, I like to read about Hank Irony's uninhibited viciousness, which leads him to fell cows with stinging rights to the head I don't want to know the truth. The truth can be frightfully boring. Especially about sports,

It is evident that Mr. Patterson lacks the killer instinct, but I wish he would keep it to himself and his analyst. I'm sure the late W. C. Fields had an immense frustrated love of children, that Charlie Chaplin is not a sad and lonely figure. Et cetera. But I don't want to be told these things in some shoddy Saturday Evening Post memoir, like

If the artist keep the truth, which is usually a painful truth, to himself: and let him give to the public that rich thing he causes to bloom out of his private dungheap. Give us a little killer instinct, Floyd. It won't hurt you Really.
